

Due to road construction in front of the South Coast Research and Extension Center, there are no left turns to enter or exit the facility.

Suggested routes:

Coming from the South -

Alton Parkway to Irvine Blvd (North), turn right into the Center.

Coming from the North -

Sand Canyon east, turn right onto Portola Parkway, right onto Portola Springs*, right onto Modjeska, right onto Irvine Blvd. The Center is on your right, turn right at the end of the first median, follow the driveway through the gate and park in an available spot.

*Please note that there is an elementary school on the corner of Portola Springs - proceed with caution during school hours.
